

Attention Employees!

The illicit manufacture of methamphetamine using common household items sold in THIS store is on the *rise!*

Pay special attention to these items:

- ✓ Cold and allergy tablets (which contain pseudoephedrine)
- ✓ Coffee filters
- ✓ Mason jars
- ✓ Lithium batteries
- ✓ Drain cleaner/lye
- ✓ Acetone
- ✓ Toluene, ether
- ✓ Isopropyl or rubbing alcohol
- ✓ Anhydrous ammonia
- ✓ Pillow cases

The purchase of these items alone or in combination does not represent illicit activity, although large quantity purchases of one or more of these items may be an indication of illicit methamphetamine manufacture.

Suspect a problem???

Don't be a hero!

Report suspicious transactions or activities to:

local law enforcement or DEA office

Misuse of Common Household Items

Illicit or Clandestine Methamphetamine Laboratories

Various forms of methamphetamine
