### Changes:

The TRANSACTION RECORD format for automated reporting has been modified for ARCOS-2. The new format has been adopted to ensure compliance with Year 2000 requirements and includes the following changes:

1. The *Transaction Date* field has been expanded to a 4 digit year. Each field following the *Transaction Date* has been shifted to the right 2 positions/columns.
2. The *Document Id* field has been eliminated (Col. 78-80).
3. Column 80 must contain a Blank.
- 3. Effective Date: January 1, 1999.**
