Pharmaceutical Diversion in Medicare

Leslie W. Hollie
Assistant Inspector General

Shimon Richmond
Assistant Special Agent in Charge
Office of Inspector General/ Office of Investigations
U.S. Department of Health and Human Services
Washington, DC 20201
Disclaimer

I have no financial relationships to disclose.
Learning Objectives

• Understand the mission of HHS/OIG
• Recognize that drug diversion and health care fraud includes both controlled and non-controlled medications
• Learn the common healthcare fraud/ drug diversion schemes and common methods how this is accomplished
• Describe the various drug “cocktails” frequently found in drug diversion/healthcare fraud schemes
HHS Office of Inspector General: Background

- **Mission:** Protect the integrity HHS programs as well as the health and welfare of program beneficiaries
- Fight fraud, waste, abuse in Medicare & Medicaid, plus 300 other HHS programs
- Largest Inspector General’s office in Federal Government
- Office of Investigations performs criminal, civil and administrative enforcement
HHS/OIG: Components

- **Office of Evaluations & Inspections:**
  - Conducts and publishes studies on various vulnerabilities in Medicare/Medicaid. Reports on OIG website with recommendations. Several drug related reports.

- **Office of Audit:**
  - Conducts independent audits of HHS programs/grantees. Also create reports and make recommendations.

- **Office of Council to IG:**
  - Provides legal counsel to IG and other components. Performs civil monetary penalties, provider self disclosures, collaborates with DOJ on national cases.

- **Office of Management and Policy:**
  - Provides mission and administrative support to the OIG

- **Office of Investigations:**
  - Law enforcement arm of OIG, which uses both traditional law enforcement techniques along with contemporary data analytic tools to identify trends and targets for investigations and prosecution

Exclusion Authorities

- Social Security Act, Sections 1128 and 1156
- Approximately 3000 actions per year
- Duration from 3 years to Permanent
- 47% Based on License Revocation/Suspension/Surrender
- 48% Based on Convictions
  - Health Care Fraud or other Program Related Offense,
  - Patient Abuse/Neglect,
  - Controlled Substance
Recent OIG Drug Reports

- Inappropriate Medicare Part D Payments for Schedule II Drugs Billed as Refills
  - $25M
- Prescribers with Questionable Patterns in Medicare Part D
  - 736 general care physicians
- Retail Pharmacies with Questionable Part D Billing
  - Over 2600 pharmacies identified
- Medicare Inappropriately Paid for Drugs Ordered by Individuals Without Prescribing Authority
  - Message Therapists, Athletic Trainers, Home Repair Contractors, etc.
Collaborative Effort

- Work with DEA and TDS Task Force Units
- Work with FBI on HEAT initiative (Strike Force operations in select cities)
- Work with state, local law enforcement
- Use/encourage Prescription Drug Monitoring Programs (PDMP)
- Support education of industry, patients, providers, pharmacists - can’t prosecute our way out of this problem
Where Does OIG Get Referrals?

- Industry
- Hotlines
- Law Enforcement Partners
- Senior Medicare Patrol
- Data Analytics
Different Drug Jurisdictions

- **DEA**: Controlled substance laws and regulations of the United States
- **HHS/OIG**: Pharmaceuticals billed to federal healthcare programs
  - Those paid by Medicare, Medicaid
  - Includes Controlled Substances paid by federal programs
  - But also includes Non-Controlled Substances
DEA & HHS/OIG Authority
Increasing Trend in Medicare Pharmaceutical Payments

Medicare Part D Expenditures

• 2012 - $66.9 Billion
• 2022 - $165 Billion
  – Projection by Centers for Medicare and Medicaid Services, Office of the Actuary
Basis for Many Pharmaceutical Frauds Involve **KICKBACKS**

**Antikickback Statute - 42 U.S.C. Section 1320a-7b(b) provides:**

(1) Whoever knowingly and willfully solicits or receives any remuneration (including any kickback, bribe or rebate) directly or indirectly, overtly or covertly, in cash or in kind –

(A) in return for referring an individual to a person for the furnishing or arranging for the furnishing of any item or service for which payment may be made in whole or in part under a Federal health care program, or

(B) in return for purchasing, leasing, ordering, or arranging for or recommending purchasing, leasing, or ordering any good, facility, service, or item for which payment may be made in whole or in part under a Federal health care program,

shall be guilty of a felony and upon conviction thereof, shall be fined not more than $25,000 or imprisoned for not more than five years, or both.
Why Divert Non-Controlled?

• Controlled Drugs:
  – Diverted for recreational use
  – $57B in societal costs

• Non-Controlled:
  1. High reimbursement—financial crime. Not dispensed, just billed. It’s not “the government’s money” – it’s YOUR money.
  2. Some diverted to other countries
  3. Others mixed into street cocktails with controlled substances; are “POTENTIATORS”
Drugs sent back to pharmacy (billed, not dispensed)

Drug Recycling Scheme

1) Drug sold on street
2) Drug sent overseas

"Capper" takes drug from beneficiary

Kickback payment

3) Drug sent back to pharmacy (billed, not dispensed)

Pharmacy

Pill Mill or Fraudulent Provider

Co-Conspirator Beneficiary
Re-shelving of “dispensed” Drug

- Over 200 pills jammed into a 90 count bottle
- (mixes lot numbers and expiration dates!)
Common Pharmacy Schemes

• Billed but not dispensed
• Fictitious scripts/name)
• Auto refills
• Add-on scripts
• Paying patients for scripts
• Payment for referrals
• Dispense compound/bill for brand

Other Issues:
• stolen identities
• prescription shorting
• narcotics without prescriptions (backdoor sales)
**Knocked Out!!!**

Percocet, Fioricet, Elavil & Lyrica

by webguy16

**DOSE:**
- 300 mg oral
- 200 mg oral
- 10 mg oral
- 1 tablet oral

**Pharmaceuticals:**
- Pharms - Premabalan
- Pharms - Amantadine
- Pharms - Oxycodone
- Acetaminophen

**BODY WEIGHT:** 160 lb

---

1945-- I just took 300mg lyrica, 200mg elavil, 10mg percocet, and 1 fioricet. I also have one of those power energy shots that Im thinking of taking when I get really tired. Looking back at all of that typed out makes me think that it may not have been my best idea ever, but I guess im just going to have to see where this takes me...

1950-- Already bored of waiting for the effects to kick in, I guess that I will just go smoke a bowl (marijuana) while I wait.

2000-- Starting to feel a little warm in the face and lightheaded... a little bit of tingling, its pretty faint and not easy to describe, but is noticeable. I have been reading some of the other experiences and I just want to mention this incase something crazy happens and I die or something, I love you mom and am so proud of my two brothers that i cant even describe it.

2011-- I find myself feeling really tingly and also really warm and fuzzy, Im spacing out alot and forgetting to keep typing, Im normally a really quick typist but Im finding it really really hard to focus on it all, its now 2018 and Im still typing...

2033-- My thinking and even my movement seems really slow and sluggish, like things are delayed or something, it also feels really hard to move, like I weigh about another 100 pounds. Even my eyes seem very slow when I move them from one place to another or when I try to read. 2040 is the time right now, so it took about 7 minutes in order to type this...

Well, after that last entry I just kind of passed out, I remember seeing something out of the corner of my eyes and trying to grab for it but never actually catching it. Once I passed out I was GONE, people tried to wake me and I was completely unresponsive, they almost called 911 but decided against when they could see I was still breathing. So... yea... I am going to do it again pretty soon probably...

**Exp Year:** 2008
**Gender:** Male
**Age at time of experience:** Not Given
**Added:** Mar 21, 2010

**Views:** 17177
Polypharmacy Cocktails

Potentiators

• Abilify + Seroquel Snort ("jailhouse heroin")
• Soma + Codeine ("Soma Coma")
• Seroquel + Zyprexa + Ativan + ETOH + Cocaine
• HIV Protease Inhibitors + Percocet
• Caffeine + ETOH + Eyeball
• Promethazine/Codeine + Tampon
• ETOH + Albuterol Inhaler
• Adderall + Albuterol + Sleep deprivation
• Adderall + Lexapro + Cannabis
• Meth/Ecstasy/Viagra (Rectally)=“Royal Flush”
Operation Bone Crusher

Norman WERTHER, MD
• Since approximately September 2009, the STUKES’ Drug Trafficking Organization (DTO) was responsible for shuttling between 5 and 12 pseudo (fake) patients daily from Philadelphia and surrounding areas to Dr. Norman WERTHER’s pain management clinic in Willow Grove, PA to obtain prescriptions for oxycodone based products like OxyContin 80 and 40 mgs, Percocet 10 mgs, and oxycodone 30 mg tablets.
HOW MUCH MONEY?
$2,652,913.00
Norman WERTHER, MD

AGE:

• 70 years old

ROLE:

• Prescribing physician who knowingly prescribed large quantities of Oxycodone based products to pseudo (fake) patients associated with six separate drug trafficking organizations (DTO) from 2009 to Present.
Ihsanulla MAAF
a/k/a “Sean”

AGE:
• 32 years old

ROLE:
• Pharmacist knowingly filling STUKES DTO Pseudo Patient prescriptions written by Dr. WERTHER.
Angel DUPREY DTO

- **AGE:**
  - 34 years old

- **ROLE:**
  - Head of independent DTO using Dr. WERTHER, operating similarly, but independently from the STUKES DTO.
CONCLUSION

- 1st time in the Eastern District of PA that an individual was charged and found guilty of 21 U.S.C. § 841(a)(1), (b)(1)(C) (distribution of controlled substance resulting in death).
