

Pharmacy Robbery & Burglary

Tips to Protect Your Customers, Your Business, and Yourself

Prevention Tips

- Ø Install an alarm system and test it often.
- Ø Install security cameras behind the cash register facing the front counter.
 - Ø Inspect cameras regularly to ensure they are functioning
 - Ø Properly store recorded data
- Ø Install hold-up/duress buttons
- Ø Invite local police to conduct a security assessment.
- Ø Learn the names of the officers who patrol your neighborhood and encourage them to stop by.

Prevention Tips

- Ø Ensure there is adequate outside lighting and leave some lights on after closing.
- Ø Change locks, alarm codes, and safe combinations when an employee leaves
- Ø Have at least two employees open and close the store.
- Ø Try to greet customers as they enter your pharmacy. Your attention can discourage a robber.
- Ø Watch for people hanging around and not buying anything
- Ø Beware of suspicious activity outside of your business.

Always be aware of your surroundings. Don't be caught off guard!

What to Do During a Robbery

- Ø Do not resist! Cooperate fully with the robber.
- Ø Remain calm and avoid sudden movements.
- Ø Do exactly what you are told to do, nothing more and nothing less.
- Ø Make mental notes on aspects of the robber (e.g., clothing, hair length, size, build, tattoos, scars and other body features)
- Ø Do not attempt to apprehend the criminal yourself.

Your primary concern is the safety of coworkers and customers. Follow the instructions given by the robber(s).

After a Robbery

- Ø Immediately get treatment for anyone who may be injured.
- Ø Sound the alarm as soon as possible.
- Ø Call police first, then your supervisor.
- Ø Lock doors immediately to prevent re-entry and keep closed until police arrive.

After a Robbery

- Ø Request customers to remain in the store to give a statement to police.
- Ø Protect the crime scene. Stop others from touching anything touched by the suspect(s).
- Ø Do not trust your memory. The quicker you write down what you observed, the better.

After a Burglary

- Ø Notify the local police department.
- Ø Avoid touching or disturbing anything.
- Ø After the police arrive, prepare a detailed list of what was stolen.
- Ø Take the appropriate steps to improve security.

If controlled substances were taken, report it to your local DEA Field Office, in writing, within one business day and submit a completed DEA Form 106 - Report of Theft or Loss of Controlled Substances - as soon as possible. A report should also be filed with the State Board of Pharmacy.

MPD Case #P090131-029

- Ø 2220 Hours on January 31, 2009
