NEW HAMPSHIRE BOARD OF PHARMACY RULES REVIEW

Michael D. Bullek BSP R.Ph.
Administrator/Chief of Compliance
New Hampshire Board of Pharmacy
Nothing to declare...

- Ex-Pharmacy Manager- RiteAid Plymouth
- Advisory Council- Plymouth State University Nursing Program
- Plymouth School Board – Chairman
- Commissioner, New Hampshire Board of Pharmacy 2011-2017
John Sample  
1 Main St  
Concord NH 03301

Your current license is due to expire on December 31, 2017. You are required by New Hampshire Law RSA 318:5-a to renew your license before the expiration date. Please complete this process no later than 15 days before your expiration date.

You can now renew your license online by going to http://nhlicenses.nh.gov. You will need your last name, license number PHCY-04367 and your registration code 88182178 to complete this process.

If you have any questions, please go to our website at www.oplc.nh.gov/pharmacy on the right hand side of the page, select Licensing, then choose your profession, or call 603-271-2350 between the hours of 8:00 a.m. and 3:30 p.m. EST.
Select “Create an account for a Person”
Create an Account Step 1:  
Search for Existing Personal/Professional Records

Read all instructions before beginning the registration process. Click here for detailed instructions.

• If you are creating an account for a business click here to continue.

In order to use this site you must create a user name and password that is associated with your New Hampshire license record. You must complete the search process to create a user name and password even if you do not have an existing license in New Hampshire.

• If you have a New Hampshire license:

Enter your license number, last name and registration code in the fields below. Enter the license number as it is printed on the renewal notice. You can verify your license number here: https://nhlicenses.nh.gov/verification/

Your registration code was provided to you by the licensing agency on your renewal notice. Contact your licensing agency if you do not have a registration code. When you click the search button the system will retrieve your current record.

• If you do not have a license in New Hampshire:

Enter your last name together with a zero in the License number field and a zero in the registration code field.

• If you are creating an account for a business:

You are not on the correct page. Click here to continue.

Click the Search button to continue.

Last Name: Sample
License Number: PHCY-04367
Registration Code: 08162178

Search
Step 2: Create your User ID and Password

Read all instructions before continuing.

- If you see your personal information in the boxes below:
  Enter user ID and password information in the User ID section below. Write down your user ID, password and password question and answer and keep it in a safe place.

- If the boxes below are blank AND you have New Hampshire license in this system:
  Go back and do the search process again. If this is your second time searching and the boxes are blank contact your licensing board for your license number and registration code.

- If the name in the Name section is not your name:
  Go back and do the search process again. If this is your second time searching and a name shows that is not your name contact your licensing board for your license number and registration code.

- If you see a user ID in the User ID section below:
  You already have an account on the system. You can enter a new password, question and answer below.

All fields with an asterisk (*) are REQUIRED fields.

Attestation

I affirm that the answers and statements made on this renewal application are true and correct to the best of my knowledge and belief. I also understand that pursuant to RSA 318:26-a, the Board must be notified within 15 days of any changes in the information contained on this form. Failure to notify the Board could result in disciplinary sanctions.
If you have disciplinary documents to upload or updated CPR or Professional Liability Insurance - upload the documents here.

Don’t forget to select the document type in the dropdown list next to the document name after uploading.

If you do not have the ability to upload documents, email them to Traci.Weber@nh.gov.

At this time the document size must be limited to 120K or less and must be either a Word Document or a PDF only. If you receive an error, you may need to send in your documents by email.

If you do not have documents to upload click the Submit button

If you are unable to upload documents, email them to Traci.Weber@nh.gov
After uploading, select the type of document from drop-down list, then hit submit.

- All program information to the extent that it is medical information will be treated and protected as like all protected health information.
- The program information may be placed in the patient medical record.
Collaborative Practice

- Approved final review JLCAR 11/16/17
- Final Board approval 12/11/17
Ph 1101.02 Scope. These rules shall regulate collaborative pharmacy practice only in the following institutions where the practice is permitted pursuant to RSA 318:16-a, III(a) – (d), namely:

- (a) Hospitals;
- (b) Long-term care facilities;
- (c) Licensed inpatient or outpatient hospice settings; and
- (d) Ambulatory care clinics with onsite supervision by the attending practitioner and with a collaborating pharmacist who has no connection to any onsite retail pharmacy.

There will be no practice site restrictions with updated rules.
318:16-a Standards for Collaborative Pharmacy Practice. -

I. For a pharmacist to participate in a collaborative pharmacy practice agreement, the pharmacist shall:
   (a) Hold an unrestricted and current license to practice as a pharmacist in New Hampshire.
   (b) Have at least $1,000,000 of professional liability insurance coverage.
   (c) Have earned a Pharm.D. degree or completed 3 years of institutional clinical experience as a licensed pharmacist.
   (d) Complete at least 5 contact hours or 0.5 continuing education units of board-approved continuing education each year. Such continuing education shall address the area or areas of practice generally related to the collaborative pharmacy practice agreement or agreements. The continuing education hours may be applied to the requirements for licensure as a pharmacist in this state.
   (e) In order to administer drugs by injection, have completed training that includes programs approved by the Accreditation Council for Pharmacy Education (ACPE) or curriculum-based programs from an ACPE-accredited college of pharmacy or state or local health department programs or programs recognized by the board.
(a) “Registered advanced pharmacy practice technician” means a person employed by a pharmacy who can assist in performing, under the supervision of a licensed pharmacist, manipulative, nondiscretionary functions associated with the practice of pharmacy and other such duties including product verification of a prescription refill in which no changes have occurred as well as verification of automation machine refilling or repackaging unit-dose.
Quality Assurance

® HB 469
º Establishing a continuous quality improvement program for pharmacies

® Ph 1701.01 Purpose. The purpose of this chapter is to implement and regulate continuous quality improvement programs. The purpose of these programs shall be to assess errors that occur in the pharmacy in dispensing or furnishing prescription medications so that the pharmacy shall take appropriate action to prevent a recurrence. The purpose of the program is non-punitive and seeks to identify weaknesses in workflow and make appropriate corrections to improve.
Ph 1704.01 Each pharmacy’s continuous quality improvement program shall meet the following minimum requirements:

- Meet at least once each quarter each calendar year;
- Have the pharmacy’s pharmacist in charge in attendance at each meeting; and
- Perform the following during each meeting:
  - Review all incident reports generated for each reportable event associated with that pharmacy since the last quarterly meeting;
  - For each incident report reviewed establish the steps taken or to be taken to prevent a recurrence of the incident; and
  - Create a report of the meeting including at least the following information;
    - A list of persons in attendance;
    - A list of the incident reports reviewed; and
    - A description of the steps taken or to be taken to prevent recurrence of each incident reviewed.

Quarterly reports available on Board inspection.
® Quality Assurance statute approved and is in effect now.
® Board will not enforce requirements until rules approved this winter, early spring
Ph 1202.01 “Central fill pharmacy” means a licensed pharmacy, in this or any other state, district or commonwealth of the United States, engaging in central prescription handling by filling, refilling, or both, prescriptions including the preparation, packaging, and labeling of the medication.

Ph 1202.02 “Central prescription processing” means “central prescription processing” as defined in RSA 318: 1, XXIII, namely, “the processing by a pharmacy of a request from another pharmacy to fill or refill a prescription drug order or to perform processing functions, such as dispensing, drug utilization review, claims adjudication, refill authorizations, and therapeutic interventions.”
Ph 1202.03 “Central processing pharmacy” means a licensed pharmacy, in this or any other state, district or commonwealth of the United States, that engages in prescription review by performing functions that include but is not limited to:

(a) Data entry;
(b) Prospective drug review;
(c) Refill authorizations;
(d) Interventions;
(e) Patient counseling;
(f) Claims submission;
(g) Claims resolution; and
(h) Adjudication.
So you think a marriage of central fill processing and advanced practice technicians is going to do?

We will get to that.
CHAPTER Ph 300 LICENSING OF PHARMACISTS AND PHARMACIES

PART Ph 306 PHARMACY PERMITS - CHANGES IN SUPPORTING DATA

- Ph 306.02 Reporting Changes

The chapter will be split, ph300 will be for pharmacists.

Ph1900 will be new section of rules dealing with pharmacies.
PART Ph 401 RENEWAL AND REPLACEMENT LICENSES
  ° Now on line registrations
PART Ph 402 DISCIPLINARY MATTERS
  ° Updated violation notices etc.
PART Ph 403 CONTINUING EDUCATION REQUIREMENTS
  ° Will require 2 credits in CQI once rules approved
  ° Add law requirement?
CHAPTER Ph 700 STANDARDS OF PRACTICE

PH 702.01 Area, Space and Fixtures
- Designated area for vaccinations of adequate size and design to ensure patient confidentiality.

Ph 702.05 Limitations on Access.

(d) The pharmacy permit shall be issued to the pharmacy in the name of the pharmacist-in-charge, who along with the permit holder shall have sole control and responsibility for the operation of the pharmacy in accordance with all laws and rules pertaining to the practice of pharmacy in this state and always in the best interest of public health and safety.
Ph 704.04 Transfer of Prescriptions.

(1) New or on hold prescription orders for ELECTRONIC PRESCRIPTIONS FOR CONTROLLED SUBSTANCES (EPCS) may transfer an original unfilled prescription from hold.

Ph 704.08 Prescription Pick-up and Delivery

(1) All schedule medications dropped off shall present picture identification and noted on hard copy of prescription.

(2) All schedule II medications picked shall present picture identification to pharmacist. Verification shall be noted in readily retrievable fashion or noted on hard copy prescription.

(3) Mail order pharmacies dispensing new schedule II medications to the patient shall have a “face-to-face” counseling or electronic equivalent and documentation readily retrievable on request by Board.

(a) Patients receiving greater than 100 morphine equivalent dose shall be counseled on availability and use of naloxone.
Ph 704.10 Out-of-State Prescriptions.

Prescriptions written by physicians for non-controlled substances in a state other than New Hampshire may be dispensed to a patient only when the traditional physician-pharmacist patient relationship exists.

Physicians Prescriptions for controlled substances in Schedule III-IV may be filled for no more than a 34 day supply.

Physicians Prescriptions for controlled substances in Schedule II may be filled if originating from Maine, Massachusetts or Vermont for no more than a 34 day supply.
Proposed Ph 700 changes

Ph 706.03 Patient Counseling.
- Removing mandatory counseling requirement?
- Addition of counseling on opioids?
- Mail order pharmacy increased requirements?
- ?????? Lots of discussion, need pharmacist involvement!!!!

Proper storage;
- (1) Risks of keeping used medications and options for disposing of unused medications.

(i) A pharmacist shall make a reasonable attempt to verify all Control Drug Medication information with the Prescription Drug Monitoring Program.
  - (1) Pharmacy shall develop and have readily retrievable a policy for verification with Prescription Drug Monitoring Program.
a. The pharmacist-in-charge or pharmacist on duty shall report to the board in writing, any theft or significant loss of controlled substances within one business day. The pharmacist-in-charge shall complete a New Hampshire Drug Loss Form *(revised 5/2015)* or **DEA 106 Form** and mail or fax to the board as soon as the investigation into the loss is complete or within 30 days of the discovery of the loss.

b. All instances of diversion shall be reported.
(c) A pharmacy shall keep a perpetual inventory for all Schedule II drugs and actual counts shall be verified monthly. The inventory reports shall be maintained for a minimum of 2 years.

(d) A pharmacy shall consider a controlled drug loss to be significant when:

1. The percentage of dosage units of a specific drug exceeds 2% of monthly dispensing volume;
   or

2. Fifteen or more dosage units are not accounted for.
(a) “Registered pharmacy technician” means a person employed by a pharmacy who can assist in performing, under the supervision of a licensed pharmacist, manipulative, nondiscretionary functions associated with the practice of pharmacy and other such duties and subject to such restrictions as the board has specified; and

(b) “Certified pharmacy technician” means a registered pharmacy technician who has become and who maintains national certification by taking and passing an exam recognized by the board for the purpose of certifying technicians.

(c) “New Hampshire certified pharmacy technician” means a certified pharmacy technician that has completed additional requirements and registered with the Board.
Registered Pharmacy technician:

- All personnel working within the pharmacy are to be licensed as “registered pharmacy technicians”
  - Cashiers
  - Delivery personnel *(NOT Required if specific)*
  - Billing/data entry

- Registered Pharmacy technicians with duties that include data entry of prescriptions without direct supervision
  - Need to take and update annually of board-approved competencies in data entry
(6) A technician in a training program to achieve certification must complete the program and attain certification status within one year of entry into program.

(d) (e) registered A pharmacy technician applying for registration as a registered certified pharmacy technician shall meet the following additional requirements:

(1) A registered pharmacy technician shall become eligible To attain New Hampshire certified pharmacy technician status after a minimum of 600 hours of training observation under the direction of a pharmacist or certified pharmacy technician and by passing a nationally recognized certification exam recognized by the board; and

(2) A registered New Hampshire certified pharmacy technician with duties involving sterile and non-sterile compounding, must complete a board approved training program before applying for certified pharmacy technician status. Participating in those duties.

(3) Shall obtain and maintain certification status from a board approved program.
Ph807.02 Registered Pharmacy Technician duties. Registered pharmacy technician’s duties shall include:

- The processing of refill request orders; **Non discretionary functions within the pharmacy concerning cashier, stocking, delivery, and other functions necessary for pharmacy operation under the supervision of a licensed pharmacist or certified pharmacy technician.**
- The retrieval of prescription files, patient files and profiles and other such records pertaining to the practice of pharmacy **necessary for insurance purposes.**
- The counting, weighing, measuring, pouring and reconstitution of prescription medication or stock legend drugs and controlled substances; and
- The data entry of prescription orders without direct supervision providing they annually complete a board approved data entry module.

(c) Perform stocking or replenishment of automated dispensing machine, other automated dispensing equipment or other stock locations. Products must be verified by a pharmacist or certified pharmacy technician. Bar-coding, radio frequency identification or another form of electronic verification is used at the time of stocking or replenishment, or a licensed health professional shall check the medication before administration.

(d) Registered Pharmacy Technician’s in a training program may perform the duties of a certified pharmacy technician under the direct supervision of a pharmacist or certified pharmacy technician. Training program shall be readily retrievable upon board inspection.
Ph807.03 Registered New Hampshire Certified Pharmacy Technicians duties. Registered certified pharmacy technicians duties shall include:

- Accepting a new oral telephone order;
- Accepting an oral refill authorization from a Provider;
- Communicating a prescription transfer for a non-control medication to or from another pharmacy that does not maintain a common database;
- Communicating orally or in writing, any medical, therapeutic, clinical, or drug information, or any information recorded on a patient profile that does not require professional judgment;
- Performing the data entry of a prescription or medication order into the computer without supervision;
- The task of reducing to writing a prescription left on a recording or message line. Prescription order can only be deleted by pharmacist on duty;
- may prepare or compound sterile and non-sterile compounds after completing board approved compound training
- Stocking or replenishing of an automated dispensing machine or other stock location. A certified pharmacy technician may check the medications pulled by a pharmacy technician or certified pharmacy technician against the delivery report prior to the refill of the automated dispensing machine or other stock location. A licensed health professional shall check the medication before administering to the patient. The facility shall employ bar coding, rfid, or another form of electronic bedside verification. Verify stock replenishment medications against the stocking/replenishment system, report or label prior to the stocking/replenishment of the automated dispensing machine, other automated dispensing equipment, or other stock location providing that bar-coding, radio frequency identification or another form of electronic verification is used at the time of stocking/replenishment, or a licensed health professional checks the medication before administration to the patient.
Pharmacist in Charge responsibilities-technicians

(4) (5) Shall have 80 hours of on the job training and be registered with the board within 15 days. Shall register with the board within 15 days, and verified by the pharmacist in charge within 30 days.

Completed 10 CEU’s if New Hampshire Certified Technician

- 2 CEU’s in didactic setting
- 2 CEU’s on error prevention or patient safety

Completed sterile compounding requirements

- 2 CEU’s in sterile compounding
4. STATEMENT FROM PHARMACIST-IN-CHARGE FOR APPLICANTS FOR NH CERTIFIED PHARMACY TECHNICIAN STATUS

I, _____________________________________, pharmacist-in-charge for ____________________________________________, have verified and confirm to the Board that the Pharmacy Technician __________________________ ____________ employed at the above pharmacy has completed the required 600 hours of training under the direction of a pharmacist as required per Ph 803.01(e)(1) and if this pharmacy technician’s duties include compounding of sterile or non-sterile prescription products that they have completed a Board approved training program on the safe compounding of medications.

Signature of Pharmacist-In-Charge
SB 65

AN ACT relative to vaccines administered by pharmacists.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1. Vaccines Administered by Pharmacists; Vaccines Added. Amend RSA 318:16-b to read as follows:

318:16-b Pharmacist Administration of Vaccines. A pharmacist may administer influenza vaccines to the general public and a pharmacist may administer pneumococcal [and], varicella zoster, hepatitis A, hepatitis B, Tdap, MMR, and meningococcal vaccines to individuals 18 years of age or older, provided all of the criteria in this section have been met. The pharmacist shall:

I. Hold a current license to practice as a pharmacist in New Hampshire.

2. Effective Date. This act shall take effect January 1, 2018.
SB150

Under this bill a pharmacy intern under the direct supervision of a pharmacist may administer immunizing vaccines.

- Be registered intern with Board
- Possess at least $1,000,000 liability insurance
- Completed appropriate training (ACPE)

May administer influenza, pneumococcal and varicella zoster vaccines

Went into effect July 11th, 2017
"New laws, rules, regulations...sometimes I don’t know what to think of all this paperwork!"
Currently no rules regarding the inspection process.

Board current responsibilities to inspect every place there are drugs in state.

Cited in Legislative Audit of 2008 and 2015 as an issue.

- Board inspections do not hold permit holders accountable to rules.
- A need to develop a risk-based inspection process.
- Required to include PDMP program in inspection process.
Registrant and licensees shall permit the Board investigators, Board inspectors and Board Commissioners to enter and inspect the premises and audit the records and operations of each registrant or licensee for compliance with the statutes and rules enforced by or under the Boards jurisdiction.

Inspections shall be scheduled or unannounced in nature to the extent authorized by law, and upon presentation of appropriate identification.

Rule on information upon request
Inspections shall be for the following registrants licensee’s as follows:

- Retail pharmacies - annually or based on risk assessment
- Institution pharmacies (hospitals, stand-alone emergency departments and long term care facilities) - annually
- Compounding pharmacies - annually
- Public Health and Methadone Clinics - annually
- Practitioner/ Clinic inspections - every 5 years
- Veterinarians/ veterinary clinics - every 3 years
- Manufacturer/ Wholesaler - every 3 years
- Limited Retail Drug Distributor - every 3 years
The following facilities possessing control substances shall be inspected every two years:

- Practitioner/ Clinics
- Veterinarians/ veterinary clinics

Inspections with past issues or disciplinary actions will be conducted annually until compliance deems issues resolved or at request of Administrator/ Chief of Compliance.
Pharmacy inspections shall be done based on level of risk as assigned by the Board.

- **Low risk inspections**
  - Retail pharmacies with no compliance issues for period of three years
  - Low to medium prescription volume
  - Pharmacist in charge competency and stability
  - Inspections will occur bi-annually with off year self-inspection

- **Medium risk inspections.**
  1. Hospitals and other institutions
  2. High volume pharmacies identified by compliance
  3. Pharmacies with multiple minor violations or warnings
  4. Non-Sterile compounding pharmacies
  5. Inspections will occur annually with a 6 month self-inspection for Board review.

- **High risk inspections.**
  - Pharmacies involved in sterile compounding
  - Pharmacies with major violations
  - Inspections will occur twice a year with two inspectors
Compliance staff will review pharmacies annually to assess risk and make recommendations to the board.

All facilities shall have an addendum of current staff and licensure readily retrievable with the following information:

- Staff name and license number
- Pharmacist vaccination training information
- Technician training information
- Collaborative practice agreement and training information
- Quality Assurance information
Violation notices

- A violation notice shall be given as a notification of non-compliance with Federal, State, or local laws.
- Minor violations shall be subject to a fine per ph710.01 and 710.02.
  - Minor violation fines are the responsibility of the pharmacist in charge and the permit holder.
  - Minor Violations are kept on file in appropriate licensing database of pharmacist in charge and permit holder.
  - Minor violation fines will be administrative in nature.
  - Minor violations shall be issued as a needs improvement, verbal warning, or violation with fine.
  - Fines shall be paid within 15 days or may request a hearing in front of the board.
  - Repeat minor violations will result in Board review with consideration for further disciplinary action.
Major violations

- The Pharmacist-in-charge and/or the pharmacist on duty at time of violation is responsible for completing violation notice within 15 days of issue.
- Violation notices shall be returned to the Board investigator/inspector in writing with corrected action noted.
- Violation notices shall be reviewed by the Board at next scheduled meeting for possible further disciplinary action.
- Subsequent or multiple violations may result in further action by the board.
- Investigators/inspectors shall follow up written violation notices no later than 60 days after action noted.
- All violation notices shall be discussed by the board and may be acted upon for further disciplinary action.
- Major violations, after board review, shall be maintained in pharmacist and permit holders permanent file.
Violation notices for practitioners shall be forwarded to respective Boards.

- Violation notices of RSA 318(b) under pharmacy statutes may result in a fine by Board of Pharmacy.
- Follow up for violation notices shall be responsibility of Board of pharmacy.

Regulatory boards may make a request of pharmacy board investigators/inspectors for follow up on board actions.
How long does it take to stick a label on a box?! Only a few seconds. It's the "making sure the medicine doesn't kill you" thing that takes a bit longer.
PART Ph 207 RULEMAKING PETITIONS

Ph 207.01 Rulemaking Petitions.
(a) A person may request the adoption, amendment, or repeal of a board rule by filing an original and 2 copies of a rulemaking petition with the board.

Ph 207.03 Action on Rulemaking Petition.
(a) Within 30 days after the submission of a rulemaking petition, the board shall either grant or deny the petition and:
   (1) Notify the petitioner in writing of a decision to deny the petition with reasons for the denial clearly stated; or
   (2) Notify the petitioner in writing of a decision to grant the petition, and commence rulemaking proceedings by requesting a fiscal impact statement pursuant to RSA 541-A:5 within 120 days of receipt of the petition and continuing the proceeding in accordance with the applicable provisions of RSA 541-A:3.

(b) Any denial shall be based upon a finding by the board that:
   (1) The petition for rule or amendment or repeal of an existing rule would not be consistent with established standards for the practice of pharmacy and the licensees of the board;
   (2) The petition lacks rulemaking authority; or
   (3) The petition is contrary to legislative intent.

“Do not dispense until 11/1/2015

“Dispense on 11/1/2015

Is there a difference?
Issue: Opioid Detox vs. “weaning”

Had a question presented on a decreasing dose of oxycodone IR.

What constitutes detoxification vs. slowly reducing a patient’s dose of opioids?
21 CFR 1306.04 Purpose of issue of prescription.

(a) A prescription for a controlled substance to be effective must be issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice. The responsibility for the proper prescribing and dispensing of controlled substances is upon the prescribing practitioner, but a corresponding responsibility rests with the pharmacist who fills the prescription. An order purporting to be a prescription issued not in the usual course of professional treatment or in legitimate and authorized research is not a prescription within the meaning and intent of section 309 of the Act (21 U.S.C. 829) and the person knowingly filling such a purported prescription, as well as the person issuing it, shall be subject to the penalties provided for violations of the provisions of law relating to controlled substances.

(b) A prescription may not be issued in order for an individual practitioner to obtain controlled substances for supplying the individual practitioner for the purpose of general dispensing to patients.

(c) A prescription may not be issued for “detoxification treatment” or “maintenance treatment,” unless the prescription is for a Schedule III, IV, or V narcotic drug approved by the Food and Drug Administration specifically for use in maintenance or detoxification treatment and the practitioner is in compliance with requirements in §1301.28 of this chapter.
