Attention Employees!

You may be breaking the law and you may be prosecuted

You may be helping a methamphetamine manufacturer by selling these common household items sold in this store

Pay Special Attention to these Items:

- Toluene
- Anhydrous Ammonia (propane tank)
- Cold and allergy medicines (which contain pseudoephedrine)
- Isopropyl or rubbing alcohol
- Acetone
- Mason jars
- Lithium batteries
- Drain cleaner/lye
- Hydrogen peroxide
- Iodine tincture
- Coffee filters
- Phosphorus (match plate)

Misuse of common household items can lead to a potentially explosive methamphetamine manufacturing laboratory.

Suspect a problem?
Report suspicious transactions or activities to: local law enforcement or the local DEA office

Presented in the public interest by the Drug Enforcement Administration, Office of Diversion Control
