INSPECT

Indiana Board of Pharmacy Prescription Monitoring Program
www.inspect.IN.gov
Indiana's Prescription Drug Monitoring Program

Objectives

1) How to Register for an INSPECT Account

2) How to use INSPECT's AWARxE System

3) Facts VS. Fiction

4) Direct EHR Integration

5) State laws impacting Indiana Practitioners

Prescription Drug Monitoring Programs (PDMPs)

What is a State PDMP?

A statewide electronic database which collects, stores & analyzes information on controlled substances dispensed in the state.
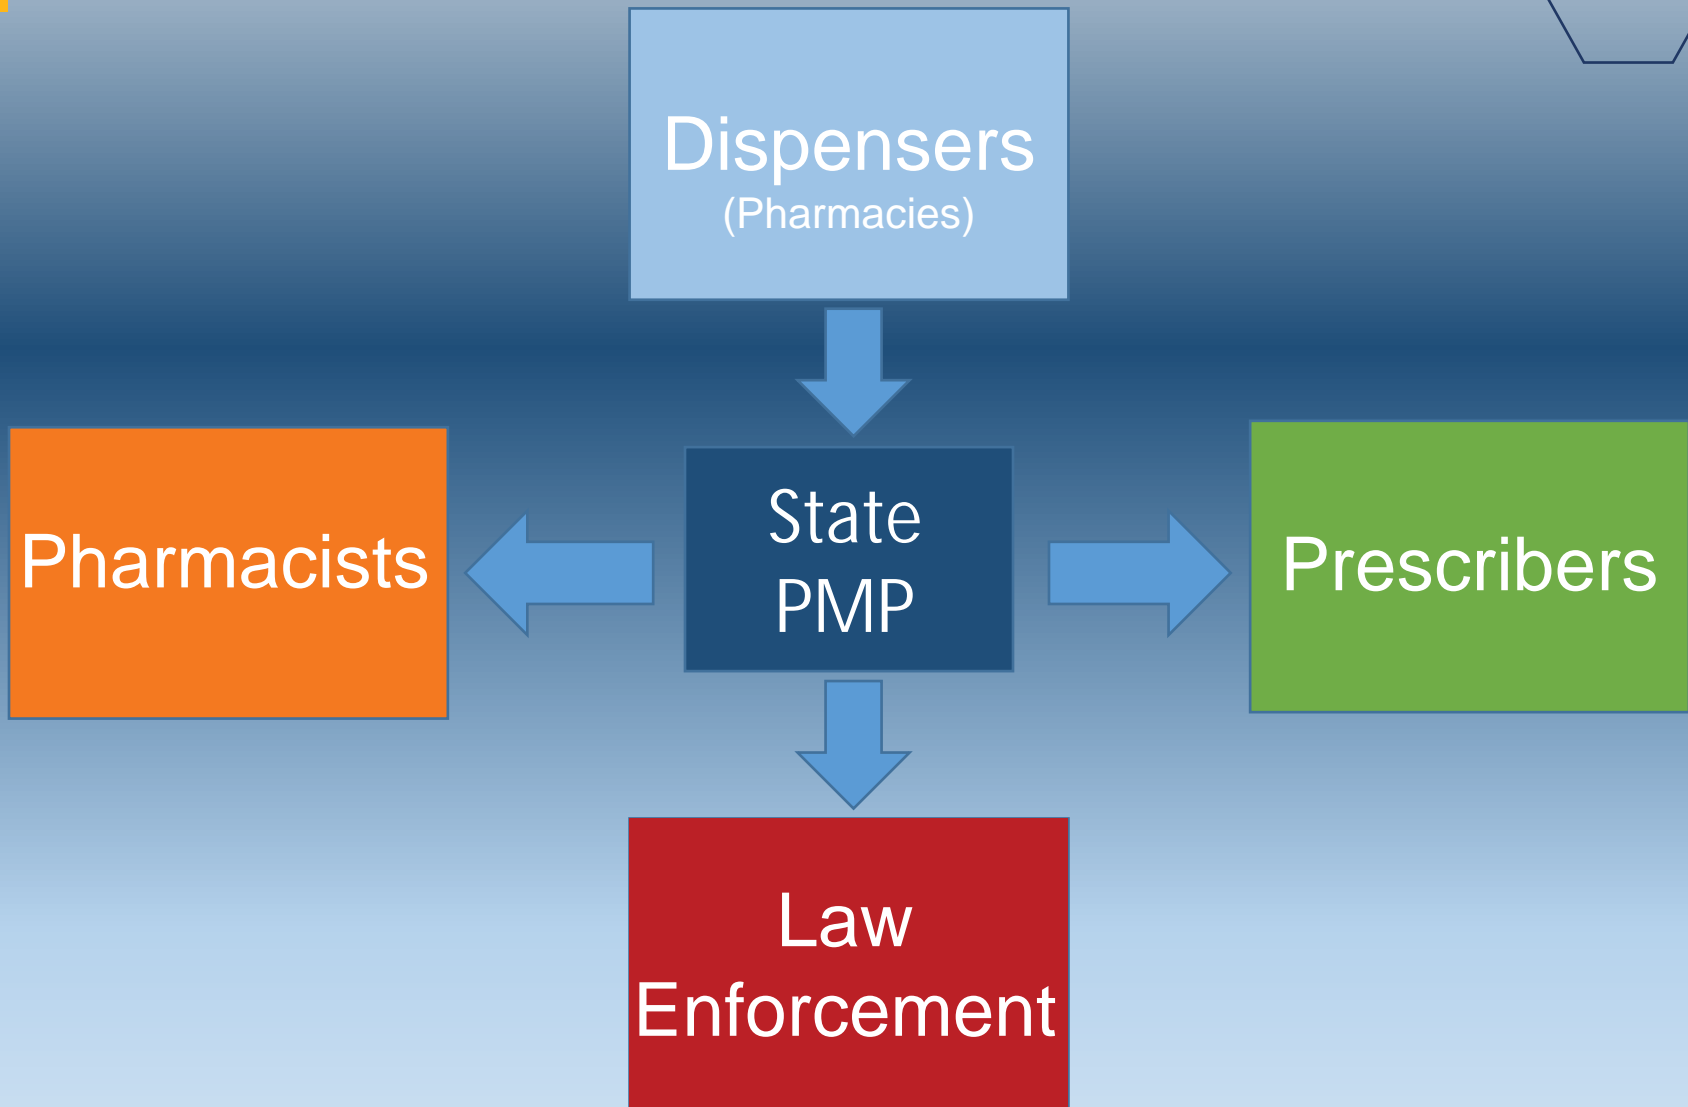

What data do PDMPs collect?

Patient info
Prescriber info
Dispenser info
Schedule II-V drugs

Who can access PDMP data?

Prescribers
Pharmacists
Law Enforcement

How do State PDMPs work?

INSPECT Program Overview

INSPECT is Indiana's Prescription Drug Monitoring Program (PDMP), which collects and tracks prescriptions for controlled substances schedule II-V and pseudoephedrine/ephedrine dispensed in Indiana. PDMPs are tools used by States to address prescription drug abuse, addiction and diversion
- Accessible to registered healthcare providers, pharmacists and law enforcement **24/7**

- Collects ~ More than **17 million** Controlled Substance prescriptions each year

- Includes data from retail & hospital pharmacies, dispensing physicians, mail orders, online and non-resident pharmacies

- Required reporting frequency: **Every 24 hours/business day**

- **100% funded** by controlled substance registration (CSR) fees

INSPECT by the Numbers
IN Healthcare providers registered for INSPECT in 2017 = **22,211**

IN Healthcare providers registered for INSPECT in 2018 = **32,058**

Patient Rx history requests by Indiana users in 2017 = **2,697,850**

Patient Rx history requests by Indiana users in 2018 = **5,092,777**

Controlled substance prescriptions logged into INSPECT in 2017 = **13,431,572**

Controlled substance prescriptions logged into INSPECT in 2018 = **12,574,674**

Eligibility for Practitioners
Practitioners must hold an valid individual DEA number as well as a valid CSR license (N/A for Pharmacists). The practitioner must be providing medical or pharmaceutical treatment, or evaluating the need for such treatment to the patient in question.

INSPECT DOES NOT COLLECT

- Any substance that is not controlled
- Pseudoephedrine sold over the counter
- Methadone clinic administrations
- Any dispensation less than a 72-hour supply
- Any substance that is *administered* directly to the patient

INSPECT COLLECTS

Controlled substances dispensed to IN residents from:

- Retail pharmacies
- Hospital Outpatient pharmacies
- Mail Order pharmacies
- Non-resident pharmacies
- Physician dispensing out of office that is more than a 72-hour supply
- Pseudoephedrine prescribed by a practitioner
- VA facility dispensations

# Sorting FACT from Fiction: Interstate Data Sharing
FICTION – State PDMPs don't share data across State lines

FACT – 47 State PDMPs currently share data through the PMP InterConnect

- PMP InterConnect became operational with data exchanges between Indiana and Ohio in July 2011.

- Governed by a Steering Committee of representatives of the PMPs that are participating in the system.

- All data is encrypted and no data is stored in PMP InterConnect.

- Supports more than 8 million interstate transactions every month.

PMPINTERCONNECT®

PUERTO RICO

Legend

- NABP PMP InterConnect State Participants
- Prospective NABP PMP InterConnect Participants
- NABP PMP InterConnect Cities/Counties Participants

# Sorting FACT from Fiction: EHR Integration

FICTION – PDMP data isn't integrated into clinician workflow today

FACT – **PMP Gateway** facilitates secure PDMP data sharing within electronic health records (EHRs)

PMP Gateway

1. Only method of integration that is permitted to connect multiple States

2. Highly secure

3. Provides an audit trail of user activity

4. Configurable to meet the needs of users
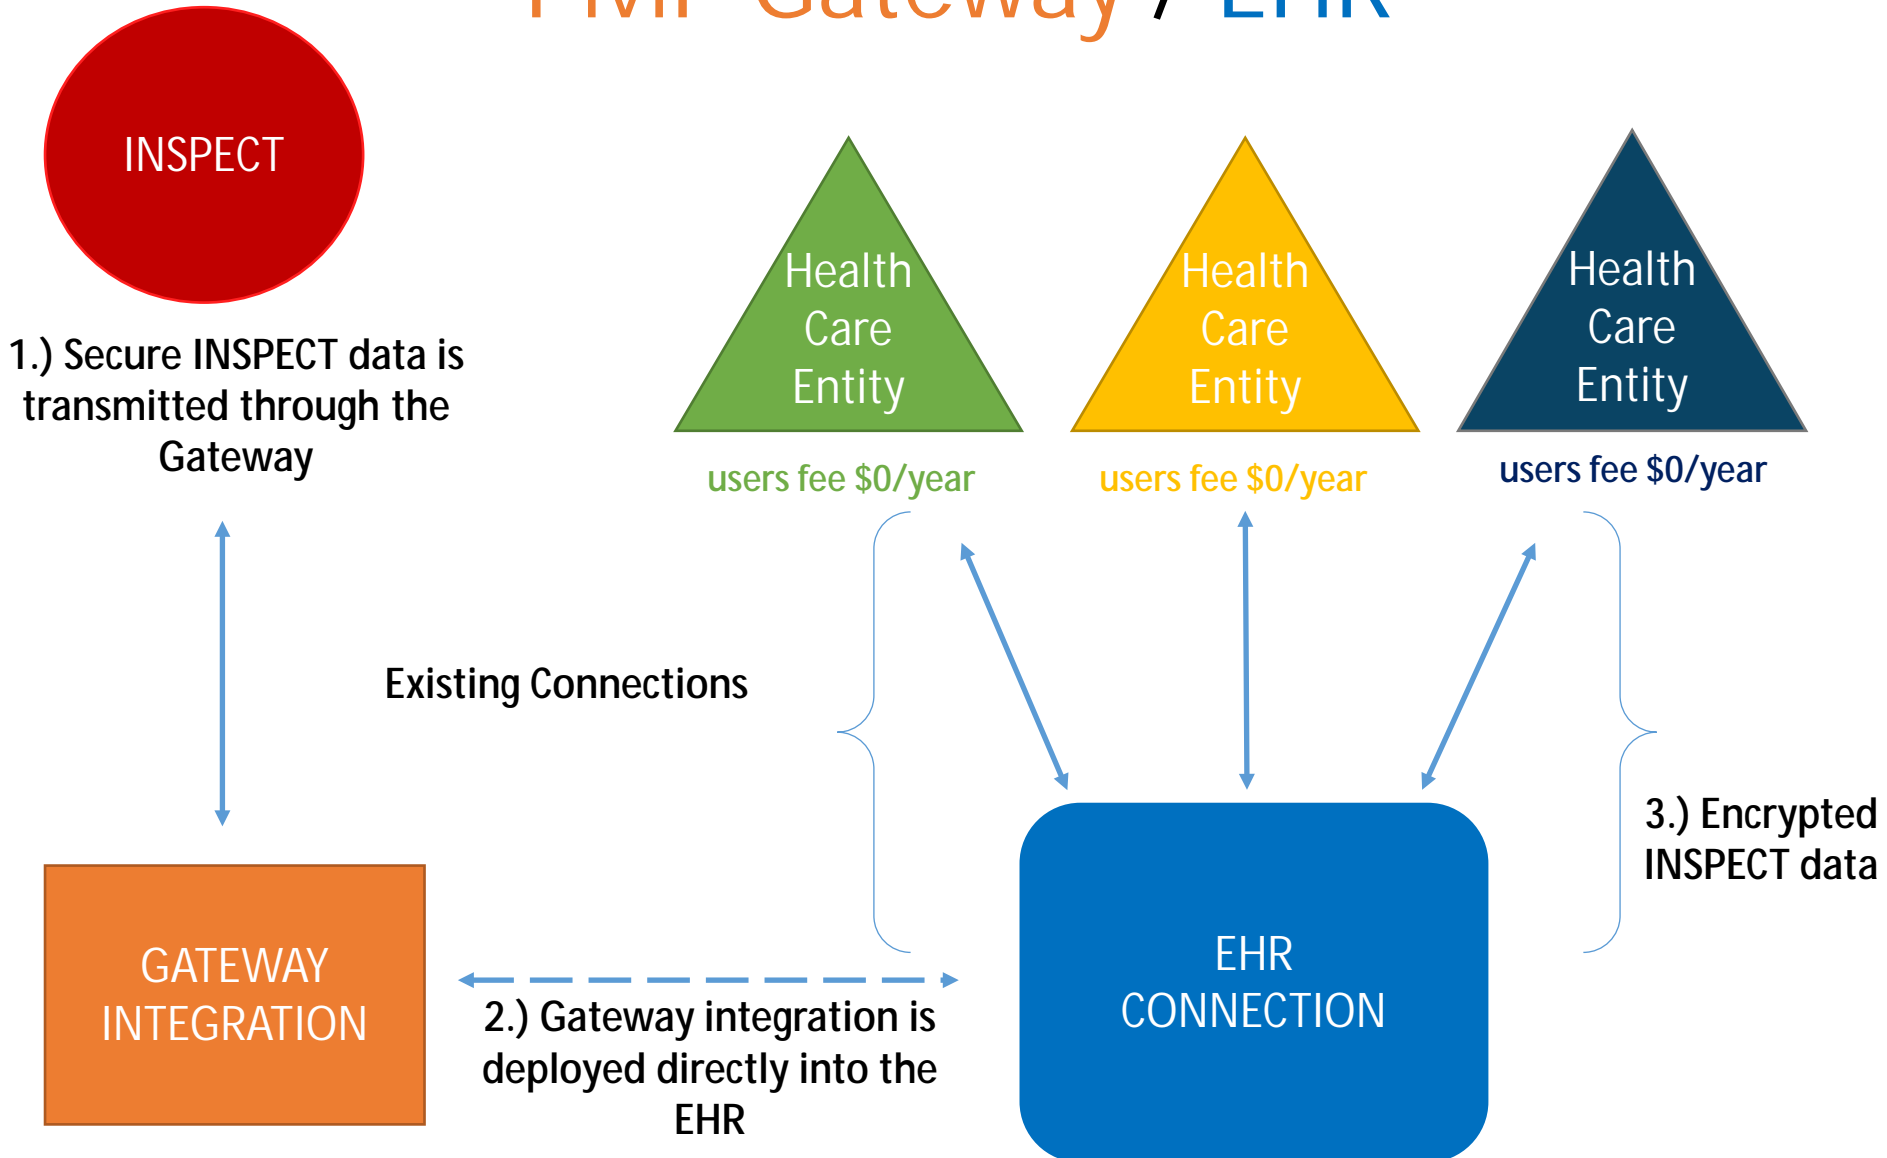

How to Integrate

1) Complete the Integration Request form and Gateway Licensee Questionnaire.

2) Review and sign the End User License Agreement. Return documents to inspect@pla.in.gov

3) Have your software vendor review the PMP Gateway Application Program Interface (API).

4) Appriss, the INSPECT software vendor, will set up an initial technical meeting with your vendor.

INTEGRATION INITIATIVE

SB 225- Continuing Education

Continuing education requirements. Establishes continuing education requirements for licensed healthcare practitioners who apply for a controlled substances registration. Two hours of qualifying CE training must be completed before each CSR renewal period. Provides that the continuing education requirements expire July 1, 2025.

Effective: July 1, 2019.

SB 176- Prescribing of Controlled Substances

Requires dentists, physicians, advanced practice registered nurses, optometrists, physician assistants, and podiatrists to issue a prescription for a controlled substance in an electronic format and by electronic transmission after December 31, 2020.

Effective: January 1, 2021

Are you Registered?

WHAT: SEA 221 phases in the requirement for prescribers in various settings to check a patient's prescription drug history in the INSPECT database each time before prescribing an opioid or benzodiazepine.

WHO: Practitioners permitted to distribute, dispense, prescribe, or administer a controlled substance are required to query patients' INSPECT history each time they prescribe an opioid or benzodiazepine.

 WHERE: Register for an INSPECT account online at indiana.pmpaware.net

The patient query requirements take effect on the following dates:

• **Jan. 1, 2019**: A practitioner who provides services to the patient in the emergency department of a hospital or a pain management clinic.
• **Jan. 1, 2020**: All practitioners providing services to the patient in a hospital.
• **Jan. 1, 2021**: All Practitioners

* All practitioners with an Indiana CSR must be registered for an INSPECT account by January 1, 2019
