

DC | HEALTH

Prescription Drug Monitoring Program

Justin Ortique, PharmD, RPh
Supervisory Pharmacist – Pharmaceutical Control Division

LEARNING OBJECTIVES

- Understand how the Prescription Drug Monitoring Program (PDMP) operates
- Review current and pending legislation
- Understand the benefits of the PDMP
- Review the PDMP registration process and learn how to conduct a patient query
- Understand a Patient NarxCare report
- Understand your Prescriber Report

DISCLAIMERS

- The DC PDMP should be used as a tool to assist providers with their treatment decisions
- There are no punitive consequences intended for providers who use the DC PDMP
- There are no penalties associated with failure to query the DC PDMP
- There are no mandates for providers to query the DC PDMP

WHAT IS A PRESCRIPTION DRUG MONITORING PROGRAM?

PDMPs are electronic databases used to monitor prescription trends within a jurisdiction by reporting the dispensation of targeted controlled drugs.

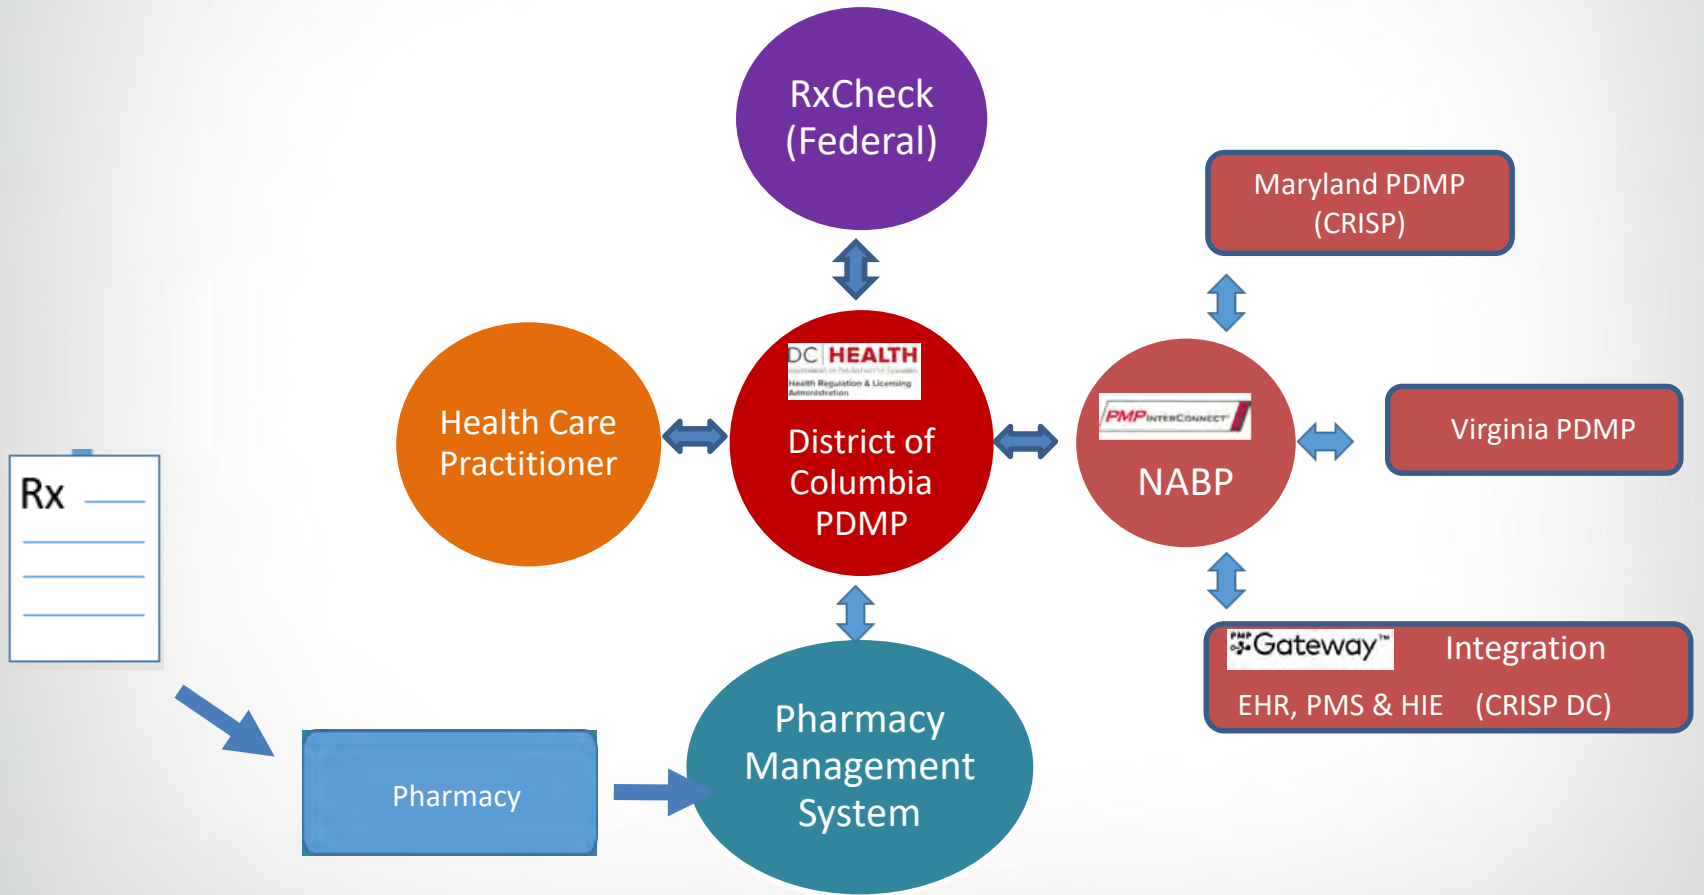

Information is collected from dispensers to monitor controlled substance dispensations

Prescriber's and dispensers are encouraged to use PDMP data to make informed patient care decisions

This information may be used to monitor matters of substance abuse, fraud or diversion

PMP AWARe (developed by Appriss) is the software vendor for the DC PDMP

PDMP FLOW CHART

DC PDMP REGISTRATION SNAPSHOT

Licensed Professional	Number of Registered PDMP Users
Physician (MD, DO)	10,689
Physician Assistant	627
Advanced Practice Nurses	1,551
Pharmacist	2,061
Dentist	1,126
Veterinarian	302
Podiatrist	133
Optometrists	175

Pharmacy Technician (Delegate)*	16
Other (Licensing Board Investigators, Law Enforcement, Medical Examiner, Midwife)	28
TOTAL	16,768

Registration Numbers as of 1/16/2020

REGISTRATION OVER TIME

DC Health PDMP User Registration, 2017-2019

DEFINITIONS

Covered Substance¹

- All drug products containing Cyclobenzaprine , Butalbital or Gabapentin
- All controlled substances included in schedules II, III, IV and V

Administer

- The direct application of a controlled substance, whether by injection, inhalation ,application ingestion, or any other means, to the body of a patient or research subject by a practitioner (or in the practitioner's presence, by the practitioner's authorized agent) or the patient or research subject at the direction of and in the presence of the practitioner

Dispense

- To distribute a drug to an ultimate user or research subject by or pursuant to the lawful order of a practitioner, including the prescribing, administering, packaging, labeling, or compounding necessary to prepare the substance for that delivery

Reporting Period

- The 24 hour time period immediately following the dispensing of a covered substance

DEFINITIONS

Prescriber

- A practitioner or other authorized person who prescribes a controlled substance or other covered substance in the course of his or her professional practice

Dispenser

- A practitioner who dispenses a covered substance to the ultimate user

PDMP Advisory Committee

- The multi-discipline committee established pursuant to section 3 of the Act, which functions under the Department to advise the Director on the implementation and evaluation of the District's prescription drug monitoring program

Interoperability

- The ability of that program to share electronically reported prescription information with another state, district, or territory of the United States' prescription drug monitoring program or a third party, approved by the Director, which operates interstates prescription drug monitoring exchanges

REPORTING EXCEPTIONS/EXCLUSIONS

- A DC licensed methadone treatment program or substance abuse treatment pharmacy or facility
- A DC licensed pharmacy that dispenses controlled substances (schedules II-V, cyclobenzaprine, gabapentin and butalbital) for inpatient hospital or nursing home patients only
- A pharmacy or facility that dispensing covered substances to inpatients in hospices
- A pharmacy or a facility that never possesses or dispenses controlled substance (schedules II-V), cyclobenzaprine, gabapentin or butalbital
- A dispensing facility that is experiencing a hardship created by a natural disaster or other emergency beyond the control of the licensee
- An ongoing controlled research project or clinical trial approved by a regionally accredited institution of higher education or under the supervision of a governmental agency

PDMP USERS

Prescribers

Dispensers

Delegates

Authorized Agents

Patients

Policymakers

Researchers

PRESCRIBER ROLE

- Supports avoidance of prescribing duplicate or inappropriate therapies that enable diversion
- Detection of patients at risk of drug abuse
- Prescribers have access to self-reports illustrating their prescribing activity
- Must provide notice at their practice stating the use of the PDMP
- Any covered substance being dispensed including those dispensed at their practice must be reported

DISPENSER ROLE

- Dispensers are required to report all covered substances dispensed unless exempt
- May access database to analyze patient history of covered substance
- Corrections must be made by the dispenser within 72 hours
- Must give notice at their facility stating that patient information will be sent to the PDMP
- Based on data review, the dispenser can discuss concerns with prescriber and patient

NABP PMP INTERCONNECT

DC PDMP currently shares data with the following 24 states:

- Alabama
- Connecticut
- Delaware
- Georgia
- Indiana
- Iowa
- Kansas
- Louisiana
- Maryland
- Massachusetts
- Michigan
- Military Health System*
- Minnesota
- Mississippi
- New Jersey
- New York
- North Carolina
- North Dakota
- Pennsylvania
- Puerto Rico *
- Rhode Island
- South Carolina
- Texas
- Virginia
- Washington
- West Virginia

NATIONAL PDMP SNAPSHOT

MANDATORY REGISTRATION

- 33 states require both prescribers and dispensers
- 11 states require prescribers only
- 7 states plus Puerto Rico have no mandates
- Guam requires dispensers only

MANDATORY QUERY

- 19 states require both prescribers and dispensers
- 26 states plus Guam require prescribers only
- 6 states plus Puerto Rico have no mandates

Director

Prescription Drug Monitoring Program

The Prescription Drug Monitoring Program (PDMP) aims to improve the District's ability to identify and reduce diversion of prescription drugs in an efficient and cost effective manner that will not impede the appropriate medical utilization of controlled substances; and to enhance patient care by providing prescription monitoring information that will assure legitimate use of controlled substances in health care, including palliative care, research and other medical and pharmacological uses.

REQUIRED INFORMATION FOR REGISTRATION

- Name
- License Number
- NPI (If applicable)
- DEA Number (If applicable)
- Work Address

The screenshot shows the 'Registration Process' page for the State Department of Health. The page is powered by Awarx. It features a navigation menu, a 'Log Out' button, and a 'Create an Account' section. A note indicates that all fields with an asterisk are required. The form is divided into 'Personal' and 'Employer' sections. The 'Personal' section includes fields for DEA Number(s), Professional License Number, License Type, and Controlled Substance ID. It also has fields for First Name, Middle Name, Last Name, and Date of Birth. A 'Add a Healthcare Specialty' section allows users to search for specialties and designate a primary specialty. The 'Employer' section includes fields for DEA Number(s) and Name.

HOW TO RUN A PATIENT SEARCH

1. Select the RxSearch tab, then choose Patient Request.
2. Enter search criteria
3. At a minimum, you must provide:
 - First name (full or partial*)
 - Last name (full or partial*)
 - Date of birth
 - Prescription fill dates
4. Click Search at the bottom of the screen to submit your request.
5. If multiple patients are identified- refine your search by providing additional search information
6. Click on “Run Report”, the patient prescription results will be displayed.

PMP InterConnect Search

To search in other states as well as your home state for patient information, select the states you wish to include in your search

- A** Alabama
- C** Connecticut
- D** Delaware
- G** Georgia
- M** Maryland Disclosures Maryland Requests Massachusetts Minnesota
- N** New York North Carolina North Dakota
- P** Pennsylvania
- R** Rhode Island

SEARCH TIPS

Partial Spelling: Using Partial Spelling can be helpful for hyphenated or commonly abbreviated names (Will vs. William). At a minimum, enter the first three characters of the patient's first and/or last name.

- **Prescription Fill Dates** - The maximum time period for your search is 36 months.
- **PMP Interconnect Search** - allows you to search other participating state databases for the patient's records.

To improve the likelihood of finding a specific patient:

- For out-of-state searches – Limit your search criteria to only the required fields.
- For in-state searches – In addition to the required fields, include additional details such as ZIP code

DELEGATE REGISTRATION

Registration Requirements

- Must be licensed, registered or certified by a health occupations board
- Must be employed at the same location and under the direct supervision of the prescriber or dispenser
- Separate applications for delegate registration

Registration Process

- Application must include individual license, registration or certification number and a copy of another government issued identification
- Application must be co-signed by supervising prescriber or dispenser

Expiration of Registration

- Registration for delegates expire June 30th of every even numbered year
- If the delegate becomes ineligible the program must be notified in writing within 24 hours

PRESCRIBER REPORTS

- This report provides a summary of a healthcare provider's own prescribing history, compared to a prescriber of the same specialty
- Launched April 2018, updated February 2020
- Available on a quarterly basis to all registered prescribers who have prescribed at least 1 controlled substance in past 6 months
- Prescribers can access their Prescriber Report on their AWARe Dashboard
- Report is not punitive and only shared with the prescriber

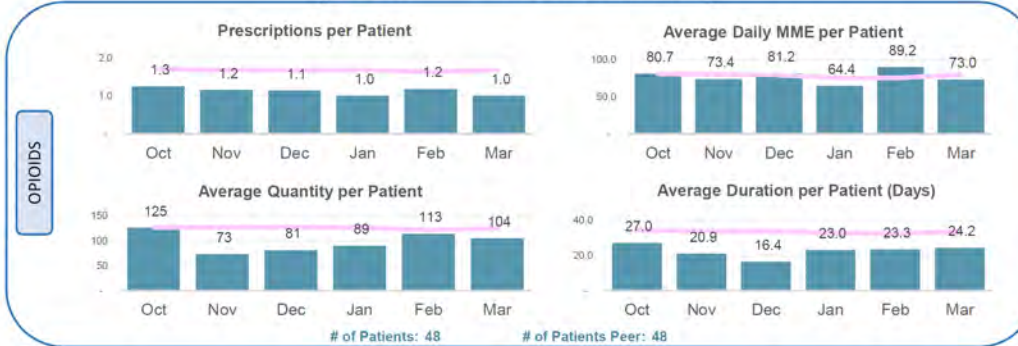

Date: 9/3/2019

*Per CDC guidance, the MME conversion factors prescribed or provided as part of the medication-assisted treatment for opioid use disorder should not be used to benchmark against dosage thresholds meant for opioids prescribed for pain. Buprenorphine products have no agreed upon morphine equivalency, and as partial opioid agonists, are not expected to be associated with overdose risk in the same dose-dependent manner as doses for full agonist opioids. MME = morphine milligram equivalents. LME = Lorazepam milligram equivalents. mg = dose in milligrams.

GATEWAY INTEGRATION

- Grant funding is currently available for the integration of PDMP data into:
 - Electronic Health Records (EHRs)
 - Health Information Exchanges (HIEs)
 - Pharmacy Management Systems

District of Columbia Prescription Drug Monitoring Program Integration Request Form

DISTRICT OF COLUMBIA PDMP HEALTH INFORMATION/PHARMACY MANAGEMENT SYSTEM INTEGRATION OVERVIEW

Effective January 1, 2019, the District of Columbia will begin steps to implement a statewide, comprehensive platform so healthcare professionals may review patients' controlled-substance prescription history more quickly and efficiently. This platform supports the District's Prescription Drug Monitoring Program (DC PDMP) and transfers data into electronic health records (EHR) and Pharmacy Management systems. Statewide integration of the DC PDMP platform is a key component of the District's ongoing effort to address the opioid crisis.

Integration Process:

1. Follow the instructions and complete ALL of the following (only authorized decision makers at the healthcare entity should fill out these forms):
 - a. Integration Request Form (Located on the right of this page)
 - b. End User License Agreement (Emailed to you within 48 hours)
 - c. PMP Gateway Licensee Questionnaire (Opens in a new window)
2. DC Health will review the Integration Request Form to determine if the Health care facility is eligible for integration and forward the form to Appriss Health.
3. Appriss Health will contact you and/or your EHR/pharmacy management system vendor with next steps. Please allow up to 7 business days for this process to complete.

For more detailed information about this important initiative, please review the [DC PDMP EHR Integration Welcome Packet](#).

Please direct policy related questions regarding integration to the DC PDMP office at doh.pdmp@dc.gov.

BEST PRACTICE FOR CLINICIANS

CDC GUIDELINE FOR PRESCRIBING OPIOIDS FOR CHRONIC PAIN

- Clinicians should review the patient's history of controlled substance prescriptions using PDMP data to determine whether the patient is receiving opioid dosages or dangerous combinations that put him or her at high risk for overdose.
- Clinicians should review PDMP data when starting opioid therapy for chronic pain and periodically during opioid therapy for chronic pain, ranging from every prescription to every 3 months.

https://www.cdc.gov/drugoverdose/pdf/prescribing/Guidelines_Factsheet-a.pdf

MANDATES

B22-0459 - Opioid Abuse Treatment Act of 2017

- Requires Prescribers and Pharmacists licensed in the District of Columbia to register with the DC PDMP
- Prohibits Health Occupations Boards from licensing, renewing, reactivating, or reinstating a licensee that is required to be registered, without proof that the licensee has registered with the PDMP.
- Allows the FBI to obtain reports related to drug investigations.
- Enables the Program to take action against an individual that submits a false statement to the program to gain access to the database or who falsely alters information in the database.
- Allows the Program to review and analyze data collected in the system to identify misuse or abuse of covered drugs, possible violations of law or breaches of professional practice (pursuant to developed criteria), and to report this information to the relevant prescriber or dispenser.

TITLE 22-B DCMR, PUBLIC HEALTH AND MEDICINE CHAPTER 10

- 1003.2 Beginning August 1, 2019, prior to applying for renewal of a controlled substance registration, a practitioner shall be registered with the District of Columbia Prescription Drug Monitoring Program (PDMP).
- 1003.3 The department shall not renew a controlled substance registration for a practitioner that is not registered with the PDMP.

FEDERAL SUPPORT ACT HIGHLIGHTS

On October 24, 2018, the Substance Use Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities (SUPPORT) Act was signed into law

Medicaid Partnerships

- Beginning October 1, 2021, Medicaid providers will be required to query the PDMP before prescribing a covered substance

Inclusion of more timely or real-time data contained within a PDMP:

- Sending proactive (or unsolicited) reports to providers
- Designing, validating, or refining algorithms for identifying high-risk prescribing activity to use as a trigger for proactive reports.
- Improving PDMP infrastructure or information systems to support proactive reporting and data analysis, including enhancing reporting system to increase frequency and quality of reporting.
- Developing and disseminating information or guidance to aid in proactive reporting (example guidance for opioid naïve patients, patients with overlapping opioids and benzodiazepines).

FEDERAL SUPPORT ACT HIGHLIGHTS

- Integrating tools such as cumulative morphine milligram equivalent (MME) calculations into patient PDMP reports
- Incorporating prescriber notification of patient overdose deaths.
- Requiring pharmacists to check the prescription drug history of covered individuals through a qualified prescription drug monitoring program before dispensing controlled substances to such individuals.
- Ensuring that PDMPs are easy to use and access by providers:
- Facilitate improved delegate access and training.
- Expand access to PDMPs via integration into electronic health records, pharmacy management systems and health information exchanges.

DC PDMP ADVISORY COMMITTEE

NEXT MEETING DATE: APRIL 21, 2020, 10:00 AM-12:00 PM

- DC PDMP Advisory Committee was established in January 2018
- Quarterly meetings in 2019
- Recommendations to DC Health Director regarding:
 - PDMP Best Practice
 - Regulatory and Legislative Updates
 - PDMP Education and Outreach to Prescribers and Dispensers
 - Program enhancements

ADDITIONAL HIGHLIGHTS

- **LIVE.LONG.DC**

- Led by the Department of Behavioral Health, DC's lead agency in combating the opioid epidemic, Mayor Muriel Bowser's LIVE LONG DC Plan aims to reduce opioid use and misuse and to reduce opioid-related deaths by 50% by 2020.
- LIVE LONG DC will employ evidence-based strategies and promising practices to meet the specific needs of Washington, DC.
- LIVE LONG DC is the District of Columbia's interagency effort to work with public and community partners to:
 - Increase public awareness and prevention
 - Enhance treatment offering
 - Strengthen recovery support

OPIOID LEARNING INSTITUTE

<https://opioidhealth.org/>

- The **Opioid Learning Institute**, led by HealthHIV
- The site currently has 12 free modules with training on opioids
- The free online and self-paced continuing education curriculum covers topics related to opioid prescribing practices, the prevention and treatment of opioid use disorder, harm reduction approaches, and other relevant topics around opioids.

LEARNING QUESTIONS

WHAT ACTION SHOULD A PRACTITIONER TAKE IF DRUG MISUSE OR ABUSE IS SUSPECTED BY A PATIENT?

- A. Contact Law Enforcement
- B. Refer patient to Department of Behavioral Health (DBH) treatment and recovery support services
- C. Check the PDMP

LEARNING QUESTIONS

WHAT ACTION SHOULD A PRACTITIONER TAKE IF DRUG MISUSE OR ABUSE IS SUSPECTED BY A PATIENT?

- A. Contact Law Enforcement
- B. Refer patient to Department of Behavioral Health (DBH) treatment and recovery support services
- C. Check the PDMP

LEARNING QUESTIONS

DISPENSATIONS OF WHICH PRODUCTS ARE REPORTED TO THE PDMP?

- A. Naloxone
- B. Controlled substances (schedules II-V, cyclobenzaprine, gabapentin and butalbital)
- C. Medical marijuana

LEARNING QUESTIONS

DISPENSATIONS OF WHICH PRODUCTS ARE REPORTED TO THE PDMP?

A. Naloxone

B. Controlled substances (schedules II-V, cyclobenzaprine, gabapentin and butalbital)

C. Medical marijuana

LEARNING QUESTIONS

WHICH OF THE FOLLOWING IS NOT REQUIRED WHEN RUNNING A PATIENT QUERY?

- A. Home Address
- B. First name (full or partial)
- C. Last name (full or partial)
- D. Date of birth

LEARNING QUESTIONS

WHICH OF THE FOLLOWING IS NOT REQUIRED WHEN RUNNING A PATIENT QUERY?

A. Home Address

B. First name (full or partial)

C. Last name (full or partial)

D. Date of birth

LEARNING QUESTIONS

TRUE/FALSE ?

1. Prescribers/Dispensers may have up to four (4) delegates each.
2. Prescribers and Dispensers are NOT mandated to query the PDMP.
3. DC licensed practitioners can access Maryland, Delaware and Virginia PDMP data.
4. A Nurse Practitioner is required to report tramadol dispensations to the PDMP.
5. Covered substance dispensation data is reported to the DC PDMP every 72 hours.

LEARNING QUESTIONS

TRUE/FALSE ?

- F** 1. Prescribers/Dispensers may have up to four (4) delegates each.
- T** 2. Prescribers and Dispensers are NOT mandated to query the PDMP.
- T** 3. DC licensed practitioners can access Maryland, Delaware and Virginia PDMP data.
- T** 4. A Nurse Practitioner is required to report tramadol dispensations to the PDMP.
- F** 5. Covered substance dispensation data is reported to the DC PDMP every 72 hours.

DISCUSSION QUESTION

A Dentist administers Percocet to a patient after a dental procedure. Is the Dentist required to query the patient in the DC PDMP and report the Percocet administration?

DISCUSSION QUESTION

A Dentist administers Percocet to a patient after a dental procedure. Is the Dentist required to query the patient in the DC PDMP and report the Percocet administration?

Answer :

- No, the ADMINISTRATION of a covered substance should not be reported to the DC PDMP.
- The Dentist is not mandated to query the DC PDMP but is required to register.

Resources
